KNOW WHERE TO PUT YOUR REFUSE

The City has been experiencing debris being dumped illegally in some areas. Trash should be placed in front of your residence, not on City right-of-ways or in front of other residences. This debris is not only unsightly, but it can create an unsafe line of vision for vehicles and pedestrians.

All solid waste materials picked up at curbside by the City must be transported and disposed of at different landfills, which are designated for that particular type of debris. The disposal site operators closely monitor the materials they receive at their landfill and will not accept any materials that are not permitted for disposal at that site. These guidelines require the City to separate debris.

In an effort to provide the most efficient curbside debris removal, we are requesting that residents place all loose debris in bags and separate all yard waste from miscellaneous large items such as construction debris, furniture and appliances.

The City sometimes receives calls regarding debris that may have been missed or only partially picked up. In most instances the materials are rescheduled for an additional pickup because of the different disposal requirements.

Homeowners are reminded that if a contractor performs work at your residence such as tree removal services, remodeling or roofing, the contractor is responsible for removal and disposal of the debris.

If you have any questions please call Public Works at 729-4064.

Recycle bins are available for pickup at Utility Billing.

Stormwater Illegal Dumping Reminder -

The City's stormwater drainage system helps protect our community from flooding and also treats pollutants prior to their reaching local water bodies. Illegal dumping into these systems can harm their ability to manage floodwater and/or allow pollutants to mix in with surface waters. If you observe any illegal discharge, connection, spill or dumping of pollutants into the stormwater system, please report it to the City's Public Works Department at 729-4064.
