

ART DISPLAY APPLICATION

- Niceville Public Library -

Are you interested in showing off your artwork? The Niceville Library has spaces available for individuals and organizations to display their artwork, crafts or collections.

The library has two large glass display cases, which remain locked while in use. The library has a limited number of floor and table-top easels available, and the placement of easels is at the discretion of the Library.

The following guidelines should be followed when planning an exhibit or display:

- The owner/artist is responsible for installing and dismantling the display.
- The Library staff cannot sell items from the exhibit, but prices may be attached to items on business cards, or a price list may be left at the Circulation Desk.
- Pieces of the exhibit may be switched out during your display dates, but please notify the Reference Manager before doing so.

Please complete the form below and submit this page to the Reference Manager for approval and scheduling. Please plan on providing sample photos of your work prior to approval.
